

Drive Impact through Innovation: Launch Your Future with CBRIN

CBRIN INTERNSHIP PROGRAM

Welcome to Your Future

As a participant in the CBRIN Internship Program you will learn in practice how innovation and entrepreneurship drive research commercialisation, technology application, business growth, and industry-academia-government collaboration towards societal, environmental and economic progress and impact. This program is your gateway to not only applying theoretical knowledge to real-world challenges but also learning how our innovation ecosystem works and becoming an essential contributor to its growth. Your work experience with CBRIN will add to your essential skills list and can lead to future job opportunities.

Why Choose the CBRIN Internship Program?

- **Real-World Experience:** Engage in hands-on projects that impact the innovation landscape. From community building to delivery of cutting-edge innovation programs, you will develop highly applicable skills and experience that are unparalleled.
- **Mentorship:** Benefit from one-on-one mentorship with practice leaders and executives who provide insights, guidance, and networking opportunities to propel your career forward.
- **Skill Development:** Enhance your professional toolkit by completing practical tasks, workshops and opportunities to raise your profile within the entrepreneurship and innovation sector.
- **Community and Networking:** Join a community

of like-minded innovators, entrepreneurs, makers and shakers. Our program offers unparalleled access to innovation coworking spaces, events, workshops, connections and more.

Program Areas of Focus:

- Collaborative innovation, hackathons, co-design;
- Marketing, storytelling, media, graphic design, event management;
- Startup and business growth programs;
- Venture funding – grants, angels, VC and venture debt;
- Research commercialisation, deep tech programs;
- Innovation-focused coworking and community management;

Duration: 12 weeks (Part-time, flexible)

Eligibility: Open exclusively to last-year students from ANU, UC, UNSW Canberra, and CIT.

Applications close quarterly: 30 January, 30 April, 31 July, 30 September.

The Innovation Internship Program is more than an internship; it's a journey into the heart of innovation. Throughout 12 transformative weeks, you will be a part of the next cohort of innovation leaders.
